Education

- **Swami Keshvanand Institute of Technology (SKIT)** Jaipur, Rajasthan
Bachelor of Technology (B.Tech) Computer Science and Engineering 2022 – 2026
- **St. Xavier's School** Jaipur, Rajasthan
Senior Secondary (Class XII) 2021 – 2022

Skills

- **Programming:** Python, Java, C++, JavaScript, SQL
- **Frameworks & Databases:** React.js, FastAPI, REST APIs, MySQL, PostgreSQL, Flask, Django, HTML5, CSS3
- **AI/ML Tools:** LangChain, OpenAI API, TensorFlow, PyTorch, OpenCV, Tesseract OCR, FAISS

Experience

- **Foundo.in** Jun 2026 – Present
Full-Stack Engineer (Founding Technical Member)
 - Spearheaded the architecture and full-stack development of India's startup connection platform from the ground up using **Next.js, TypeScript, Supabase, Prisma, and Clerk**.
 - Engineered the end-to-end infrastructure, establishing **CI/CD pipelines via Vercel** and designing a normalized PostgreSQL production database on Supabase.
- **Imagitime** Jul 2025 – Sep 2025
Software Developer Intern
 - Developed backend modules with **Python and REST APIs**, improving efficiency and maintainability.
 - Collaborated with developers to integrate AI-driven automation features and optimize workflows.
- **Standyou Data Info Labs Pvt Ltd** Jul 2024 – Aug 2024
SEO Intern
 - Conducted keyword analysis and optimized web content, achieving a **45% increase** in organic traffic.

Projects

- **AI-Based UFDR Forensic Analysis Platform** Oct 2025 – Dec 2025
Python, FastAPI, PostgreSQL, pgvector, Qdrant, OpenAI Agents SDK, Docker
 - Built an **end-to-end UFDR ingestion pipeline** with an average **upload-to-analysis latency under 3 minutes**, spanning frontend upload, bucket storage, extraction, and database ingestion.
 - Enabled **natural-language forensic queries** across chats, calls, media, and locations using vector-based semantic search.
- **Smart Document Insight Generator** Jul 2025 – Sept 2025
React.js, FastAPI, Python, LangChain, OpenAI, Tesseract, FAISS
 - Developed a **GenAI RAG platform** to extract insights from **5,000+** semi-structured documents using multilingual OCR and FAISS.
 - Built a scalable React frontend and **FastAPI backend**, automating Q&A and document summarization to reduce review time by **80%**.
- **Indian Sign Language Translator** Nov 2024 – Dec 2024
Python, TensorFlow, OpenCV, FlutterFlow
 - Trained a **CNN-based ISL-to-text translator** on a dataset of **2,000+** gesture samples, achieving over **80% accuracy**.
 - Deployed a mobile prototype via FlutterFlow to enhance communication accessibility for the hearing-impaired.

Achievements

- **Smart India Hackathon 2025:** Winner, selected among 50,000+ teams.
- **Smart India Hackathon 2024:** Finalist.
- **Eureka! 2024:** Semi-Finalist, recognized for an innovative real-world technical solution.
